

Almond Oil-

- Soothes Dry Skin
- Improve complexion and skin tone
- Highly emollient (balances the absorption of moisture and water loss)
- Antibacterial, full of vitamin A
- Used to treat acne

Avocado Oil –

- Contains potassium, lecithin and other nutrients that nourish and moisturize skin
- Skin easily absorbs nutrients
- Protects from damaging UV rays

Castor Oil –

- Has fatty acids which can be used to moisturize the skin
- Act as occlusive moisturizer – which prevents or reduces water loss through the outer layer of skin

Coconut Oil –

- Natural antioxidant
- Deep moisturizing
- Effective moisturizer

Grapeseed Oil –

- Strengthens cell membranes
- Improves skin appearance
- Tones and firms

Jojoba Oil –

- Deeply-hydrating
- Long-lasting moisturization
- Nutritious for skin
- Anti-aging
- Non-acnegenic
- Easy, not greasy
- Soothes sunburn
- Gentle & non-allergenic

Olive Oil –

- Fights Dryness
- Source of Vitamin E
- Repairs damaged tissues

Palm Oil –

- Antioxidant
- Moisturizing
- Wrinkle Fighter
- Source of Vitamins A, C, D & E

Sunflower Oil –

- Good for dry skin, oily skin and mature skin
- Helps provide moisture for dry skin and allows skin to retain water
- For sensitive skin – sunflower oil provides gentle moisture, protection, and a soothing feel
